C#/NET Developer

## About me

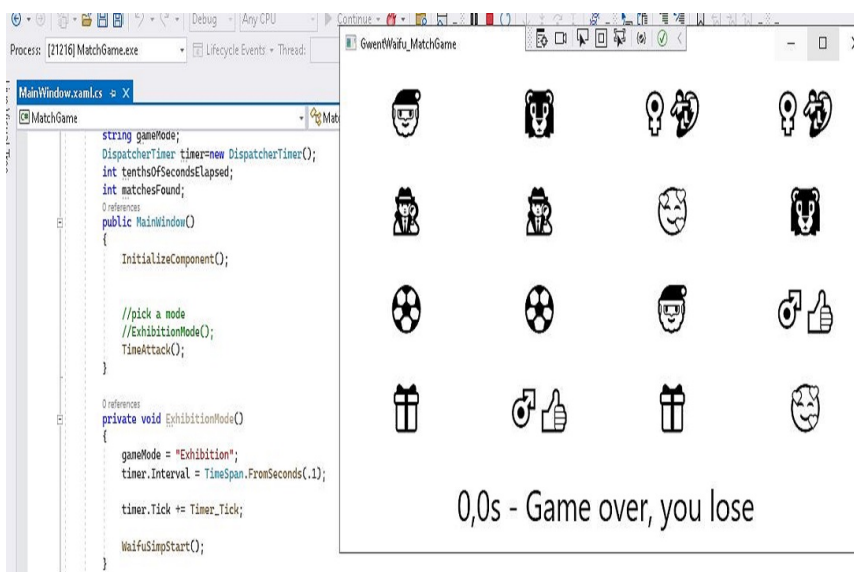

My name is Herry Wijaya. I graduated from Universitas Pakuan as Bachelor Degree of Computer Science. My main programming language is C# and my main skill is developing WebAPI service using repository pattern and clean architecture with .NET. I have 3 months work experience as frontend web developer. My achievements are having completed numerous Udemy course regarding C# and .NET framework usages and have received MTA 98-381 certification.

I'm familiar with the following technologies:

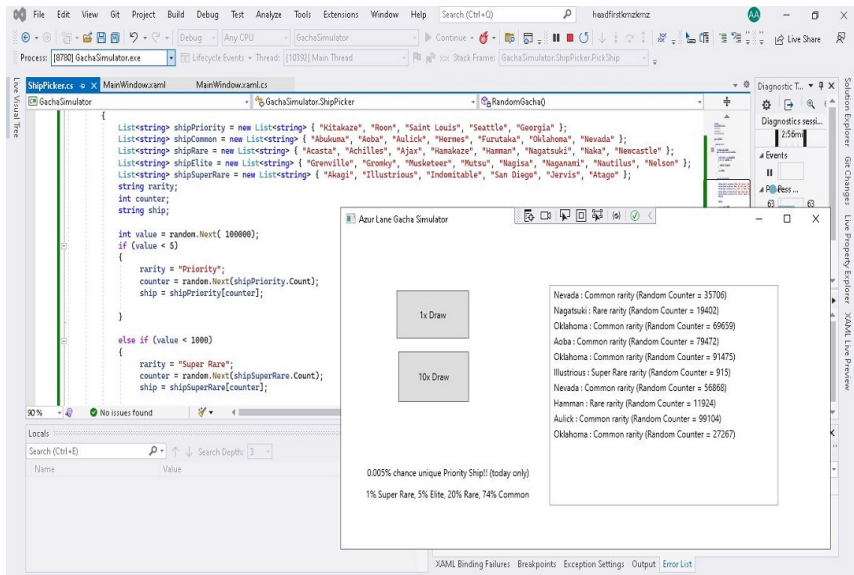

- Frameworks= WebAPI, MVC, Blazor, WPF, Razor.
- Tools= Postman, Docker, MySQLServer, SeriLog.

## Projects
